Other questions.

Alien --? Why tapes called like this?

I seen misunderstanding when creator of one game was by mistake not called creator his own game. I need 100% proof to confirm my own games so I created taped named "Alien" for my own games. Of course I can create tapes with normal names.

Some people think your game is bad?

I can fix objective reasons such as bugs. But I made my games for myself and I was thinking someone else also could enjoy these games. But... Surely my games were made not for annoying trolls who blames for making games. Of course normal feedback (not insults) is always welcome.

There will be fourth game about Jerry?
